Moussa Dione

Motivated and curious junior full stack developer, driven by the desire to build useful solutions. Creative and serious, I put myself fully into every project to learn and grow. Open and collaborative, I believe in the power of teamwork and knowledge sharing. Rigorous and committed, I want to bring real value while building my expertise.

Work Experience

ACHIEVEMENTS & PROJECTS

- Personal project: a childcare management application in Python, JavaScript and MySQL
- GitHub contributions: Python scripts written and shared to automate tasks on Linux
- Academic projects:
  - PHP/MySQL website for a football club
  - Learning website for web development

Graphic Designer – Logo Design

June 2025

- Designed professional logos for healthcare and medical transport (ambulance) companies.
- Created visual identities with Canva (icons, colours, typography).
- Adapted the logos for digital media (CVs, social networks, official documents).

Hackathon Participant & Winner

2025 - 2026

- Took part in and won several team hackathons.
- Built award-winning projects: an education platform and a complete museum website.
- Teamwork and project pitches in front of a jury.
